

Provides for Elimination of Inhabited Alleys Within Ten Years.

## BACKED BY MR. WILSON

mended by Citizens Sub nitted to House and Senate District Committees.

Elimination of Washington's inhabited slums within ten years is provided in the citizens' alley committee bill submitted by the District Commissioners to the Senate and House District Committees

Senate and House District Committees yesterday.

The measure bears the indorsement of President Wilson, as well as the recommendation of the Commissioners that it be enacted into law. The bill was drawn by the executive committee of the citizens' committee, Rev. John Van Schalek, jr., chairman.

The features of the proposed law are explained in a communication which accompanied the bill. The Commissioners say, in part:

#### Interest of Public Health.

"The bill has been constructed to provide, in the interest of public health, comfort, morals, and safety, for the discontinuance for use as dwellings buildings situated in alleys in the District of ings situated in alleys in the District of Columbia. Alley buildings used for human habitation are rented to the poorest class of tenants, but it is commonly understood they pay the largest percentage of profit. While much has been done to make these alleys clean, their hidden condition behind other buildings make them centers of immorality and crime and very often breeding places of disease, which tends to lower the moral, social, and physical tone of their occupants.

"This bill is based on the police power of the government to abate a nuisance. It does not recognize as a property right the right of human habitation in alleys. the right of human habitation in alleya. It follows in particular the act of Congress of 1892, by which a right to build for habitation on unimproved alley property was taken away. It gives any owner who considers himself aggrieved his day in court, but it does not recognize any new property right.

"The bill provides that after a period of ten years no alley building shall be used as a dwelling. It directs the Commissioners to close to habitation one-tenth of the inhabited alleys for a period of ten years. It gives them authority to open

rears. It gives them authority to open minor streets through the squares affect-ed wherever local conditions warrant such treatment, and gives them right to acquire property for that purpose. Be-cause of the irregular shape of the alleys, the bill gives the Commissioners power to acquire all of the land in the interior of the square, authorizes them to repist the interior and to make such disposition of the subdivided land, as, in their opinion, the public interest re-

## January Building Permits.

## HOMESEEKER. An Opportunity for You.

When a builder makes a mistake and oversteps himself, the loss is his; as it should be. But—every loss has a corresponding gain, and it is the alert buyer who turns the mistake of the builder to his own profit in nine out of ten such cases.

One of our best builders has made just such a mistake, and we are trying to find the "alert buyer" who is sharp enough to take advantage of the opportunity.

portunity.

The house is very well built, part of the mistake was in building toe expensively; it has seven rooms and all improvements and most advantageously located on prominent avenue north-

west.
The price-well, never mind that;
this is an opportunity in which the
price plays the least part. BE ALERT! SEE US QUICK!
